Liz Tavares
Department Chairperson for English Language Learners K-12

December 7, 2018

Dear Parent(s)/Guardian(s) of Trumbull Grade 3 or 4 Student:

Knowing the eagerness with which you and your children likely await the enclosed Trimester 1 report card, I encourage you to review also the Report to Parents, on the reverse, that presents a fuller picture of your child's progress in mathematics thus far this year.

The Report presents your child's performance on three types of assessments used in our mathematics program during Trimester 1:

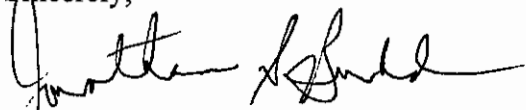

- Basic Math Facts Quizzes
- The Exemplar Summative
- The District Math Benchmark 1

The Report includes some context about each type of assessment, then presents your child's Trimester 1 score(s) on each type. This array of score data should present a fuller picture of your child's mathematics learning than any one of the scores could do in isolation.

As the Report indicates, additional questions about your child's performance should be directed to your child's classroom teacher. Additional specific information related to the K-5 standards-based report card is available on the District website, including Report Card Companions for language arts and for mathematics.

Our goal, as always, is to work in partnership with you toward the strongest learning for each and every child. If you have feedback, questions, or concerns, please feel free to contact your child's teacher, your school's principal, or me.

Sincerely,

Jonathan S. Budd, Ph.D.
Assistant Superintendent of Curriculum, Instruction, and Assessments
